Mosquito killer switch design

In the power-on state, when the mosquito repellent device is on the left, the mosquito repellent magnetic sensing switch is turned on, and the main control board Controls the 12V 400nm UV lamp. When the mosquito repellent device is on the right, the magnetic sensing switch is turned off and the mosquito repellent UV lamp is turned off. (The LCD screen does not display mosquito repellent function).

Power-off protection

When the purifier is tilted and the cover is opened, the safety device automatically powers off to avoid causing security risks.

Machine Dimension (WxDxH)	320x320x657mm
Coverage Area	35 - 60 m ²
Colour	White
Main Material	ABS
Particle CADR Value	500m ³ /h
Gaseous CADR	200m ³ /h
The Highest Level Noise Power dB(A)	62dB
Power	40W
Producing Area	China
