Repellant Air Purifier

KJ600F-A09

Negative Ions are known as "air vitamins" effectively remove a variety of toxic gases, purifying without secondary pollution.

Smart + Healthy Living

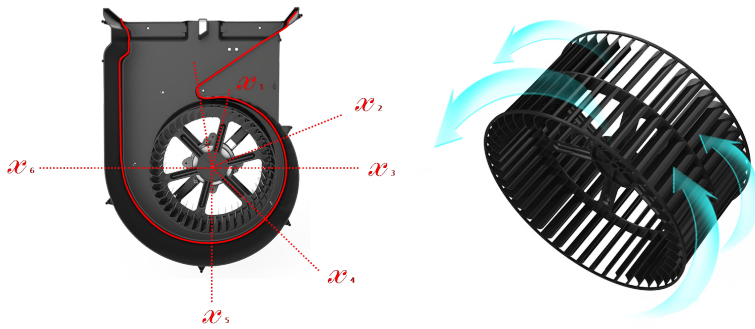

Three-layer Filtration Deep Purification

1. Initial Effect
2. HEPA
3. Activated Carbon

Large area of harmful air are drawn in from the backside, fresh air comes out quickly from the top.

Newly Designed bevel fan blades

The newly designed bavel fan blades with better supercharging effect than before, the height of the upward spray is higher and lower noise.

With the professional design and precise calculation, it can effectively reduce wind noise. Utilizing aerodynamics, the depth-optimized airflow streamline curve is specifically designed for noise. The new noise reduction airflow can reduce noise by about 5%

Machine Dimension (WxDxH)	436x280x645mm
Colour	White
Main Material	ABS
Input Power	80W
Fan Speed	4 Speeds
Particle CADR Value	600m ³ /h
Gaseous CADR	120m ³ /h
The Highest Level Noise Power dB(A)	60dB (A)
The Maximum Coverage Area	72m ²
The Minimum Coverage Area	42m ²
One-button Remote Control	Yes
