# Smart + Healthy Living

*Healthy Living made possible by air filtration and ventilation system*

*Clean air supply and foul air removal made easy*

- Stylish and elegant in appearance. Home Avant Garde
- 5-layer pure physical filtration, PM2.5 one-time filtration efficiency of 99.97%, unique sterilizing filter layer, effectively removing odour and chemical gas pollution.
- Intelligent APP control, big data information optimization, remote operation, monitoring of home air quality
- No need for piping, wall mounting, convenient and beautiful, suitable for small room
- DC brushless silent motor encased into the air fresh system
- Intelligent display life filter, automatic prompt replacement allowing convenience in filter replacement
- With power off protection, wind door closure function, national 3C security certification

Machine Dimension (WxDxH)	350x175x460mm
Power	60W
Coverage Area	<35 m <sup>2</sup>
Air Volume (Outer Circulation)	160m <sup>3</sup> /h
Noise Level (Sound Power)	<45dB(A)
Control Method	3.5 inch TFT Touch Screen + Smart APP + Wechat Data Sharing
Auxiliary Heat Power	400W
Filtering System	G4 Initial Effect Nylon Mesh/ H13 High Efficiency HEPA
Sensor Configuration	PM2.5 / CO2 / Temperature
Airflow	One Way Flow
Heat Exchange	No
