

Smart + Healthy Living

Clean Air System

iClaire-520-G2

Floor Stand

Heavy duty purifying capabilities.

Remove odour and pollutants.

Suited for coverage large office areas.

Smart + Healthy Living

Healthy Living made possible by air filtration and ventilation system

Clean air supply and foul air removal made easy

- Modern and fashionable in appearance, avant-garde
- 4 filters, 7 layers of pure physical layer filtration, PM2.5 one-time filtration purification efficiency of 99.97%
- Unique sterilizing filter layer, effective removal of odor and chemical gas pollution
- Two-way flow design, internal and external circulation function, always maintain an oxygen-rich environment
- Intelligent APP control, big data information optimisation, remote operation, monitoring home air quality
- No need for piping, floor installation, convenient and beautiful, suitable for large living rooms, office rooms, campus use
- Silent design DC brushless silent motor encased in the air fresh system
- Full heat exchange core, constant temperature and humidity, energy saving, saving money, more peace of mind
- Intelligent display life filter, automatic prompt replacement, easy filter replacement
- With power-off protection, damper closing function, national 3C safety certification
- Auxiliary heat design, increase the inlet air temperature, effectively combat the cold winter and extreme weather

Machine Dimension (WxDxH)	500x300x1785mm
Power	170W
Coverage Area	<150 m ²
Air Volume (Outer Circulation)	520m ³ /h
Particle CADR Value (Internal Loop)	650m ³ /h
Noise Level (Sound Power)	<45dB(A)
Control Method	5.0 inch TFT Touch Screen + Smart APP + Wechat Data Sharing
Auxiliary Heat Power	600W
Filtering System	G4 initial Effect/ Antibacterial Filter/ F7 Medium Effect/ Activated Carbon/ H13 Level High Efficiency HEPA/ Exhaust Filter
Sensor Configuration	PM2.5 / CO2 / Temperature
Airflow	Two Way Flow, Mechanical Air Intake, Mechanical Exhaust
Heat Exchange	Full Heat Exchange
